Our Services

We help business transform with our service. Zinovate Cloud provides the full stack of services, all delivered with the right ecosystem partners to achieve your digital transformation goals.

Consulting & Advisory

True Digital Transformation requires a vision and a plan that protects your clients, partners and employees from cyber threats, increase efficiency and reduce unnecessary operational cost. Our experts develop strategies & roadmaps which consider flexibility and security first, to reduce the organization's risk and minimize breaches while improving day to day operations.

- Digital transformation strategies & roadmaps
- Hybrid Identity & Cybersecurity Strategies
- Strategies and road maps of Microsoft 365 and teams

Solution Design & Implementation

Leveraging our deep Microsoft technical expertise and extensive deployment experience, Zinovate Cloud delivery model is focused on the design and development of flexible and integrated solutions that deliver tangible business value, while taking full advantage of the Microsoft suite of technologies.

- Architect and design integrated and flexible solutions
- Configure solutions and conduct extensive testing
- Implementation and Cloud Migration

Automation & Management

Managed Services support the smooth day to day operation of your solution. Our team of experts provide coaching and direct support to your organization to resolve technical issues and challenges or to help continuously improve your solution by incorporating new value added features and capabilities. We believe any activity that needs to be performed more than once, "Must be automated".

- Cloud Management Services
- Helps ensure ongoing operational excellence
- Enhances corporate security, productivity & agility

Security Strategies & Assessments

A hardened security perimeter is built upon applying best practices and ensuring compliance with security standards. Our experts conduct Data Loss Prevention Strategies and Security Assessments on your specific applications or broad IT environment to detect and resolve gaps that weaken your defenses.

- Data loss prevention strategies & roadmaps
- IT security policies, standards & procedures
- Office 365, application or corporate security assessments

Adoption & Change Management

Transitioning organization to a new solution requires planning from the very beginning. Our experts ensure that upon solution introduction your IT and Security staff are well positioned and trained to support the new solution. End users are equally prepared for change by leveraging our proven communication and enablement tools designed to maximize adoption.

- IT and Security training and knowledge transfer activities
- Operationalize with build and operations guide, FAQs
- Communication and enablement tools to maximize adoption

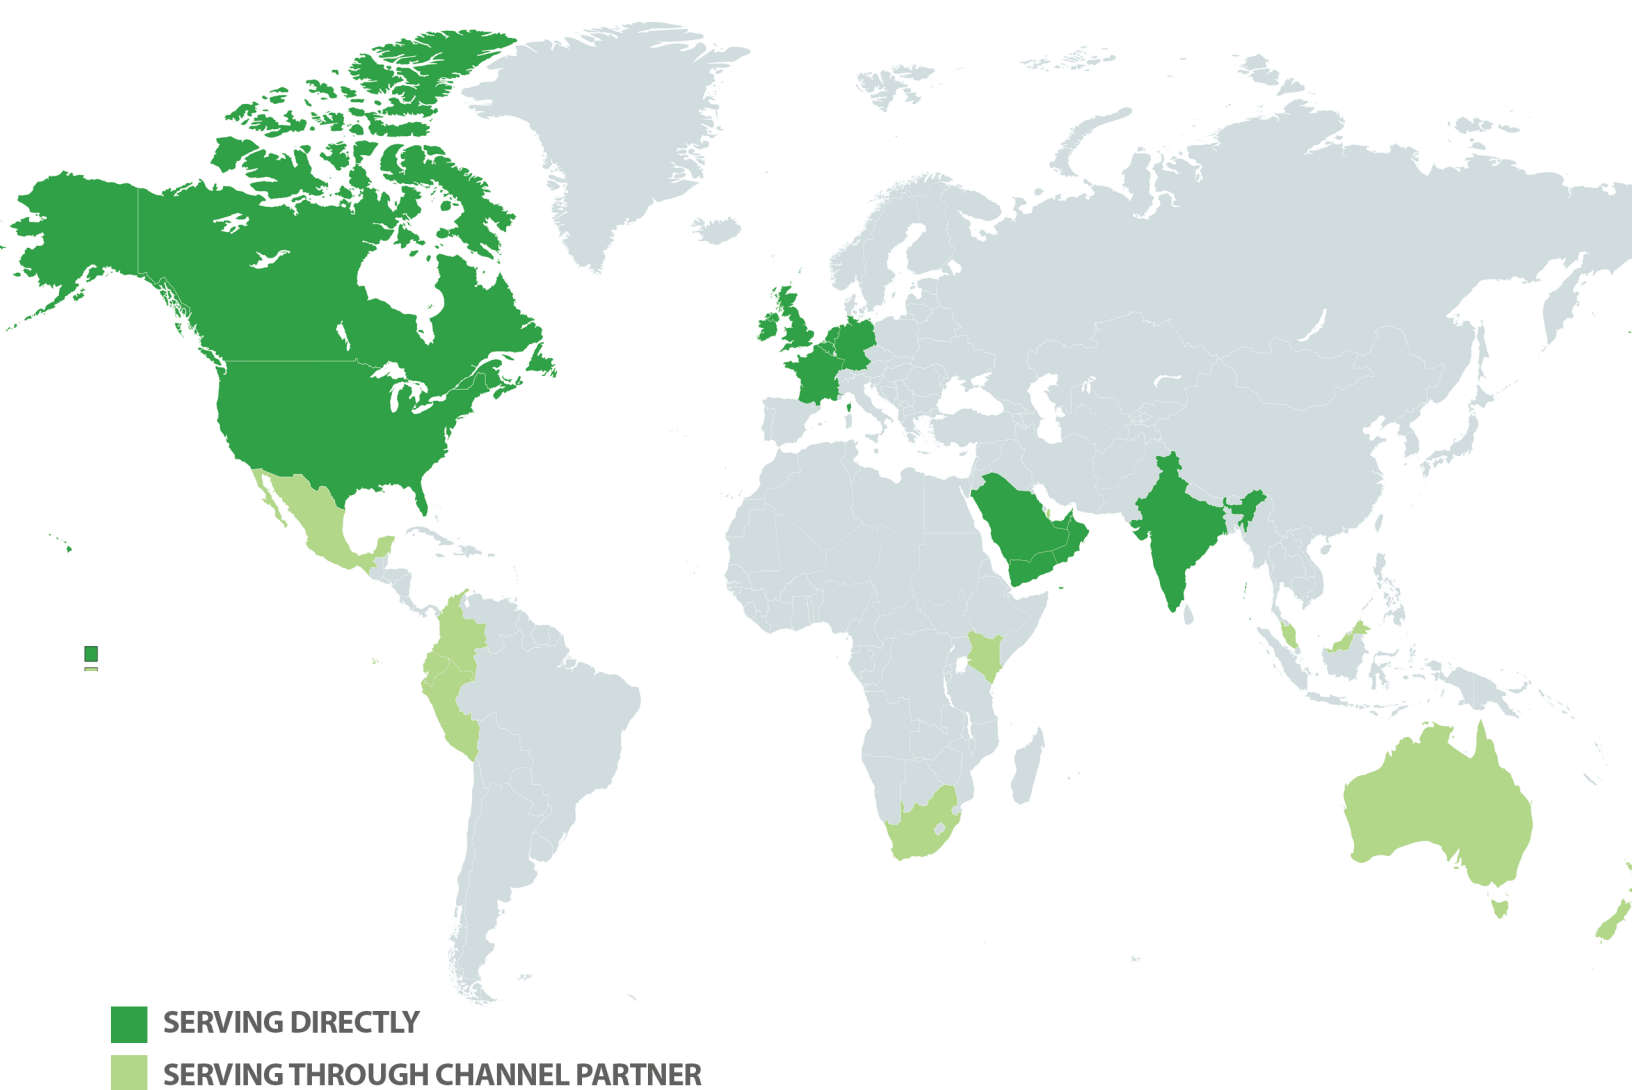

E-Learning & Training

Education is the main driver of progress and is more than just reinforcing the information someone already knows. Our training services are always focused on continuous improvement to meet your organization's needs and drive growth. Our Learning Services is designed to solidify the foundation of your business with customized solutions addressed to your specific educational objectives

- On-Premise Classroom Training
- Instructor-Led Live, Online Training
- Self-Paced Online Training

Our Talent

Transformation requires broad technology knowledge, industry experience, action, and accountability. In a rapidly changing digital world, you require a team of diverse technology experts working together to uncover and implement the right solution, at the right time, in the right way. We mainly focus on nine core Human Resource (HR) areas: Talent strategy, Workforce Planning, On-boarding, Learning & Development, Performance Management, Leadership Development, Career & Succession Management, Compensation & Benefits and Company Culture.

Today, we are building a hyper-connected organization using internal social platforms to ensure extensive collaboration and engagement among our employees. This acts as a critical driver of competitive advantage among the 82% digital natives in our employee base.

Our ability to create an 'experience' for our employees has helped us consistently to have the highest retention rates in our industry globally. Learn more about careers and opportunities at Zinnovate Cloud.

Over 150 IT certifications across cloud, Cyber security, DevOps, SRE and Cognitive service practices
